Marriage Licenses
Geo. Kaston 22, laborer, Swanton, and Ethel Collet, 17, Swanton.
Harold G. Mason 21, farmer, Morroni and Bernice Branner, 19 Oak Shade.

THE SUNDOWN OF YEARS

Mr. Mark Phillips celebrated his 101st birthday Wednesday of last week. He is an honorable citizen of Royalton Township and is in splendid health.
Mr. Phillips was born in Theddlethorpe, England, October 5th, 1820. He was united in marriage to Mary Ann Thompson, June 12th, 1851 and they moved to America, settling in Ambury township in 1872. Mrs. Phillips died about 20 years ago and since that time he has made his home with his two daughters. He also has one son living in Seattle, Washington.
He bears the distinction of being the oldest citizen in Fulton County.

"SELLING" YOUR TOWN

Nowadays before a salesman is placed on the road by any of our larger concerns they are given a course in salesmanship. They are first made acquainted with the article they are to sell, they are given its talking points, or made to see its worth and value to the consumer, and then they are allotted their territory. Selling a town is precisely like selling goods. You must know first of all the advantages of your town, you must be able to tell the outside world what it has in the way of advantages and then you must dwell on these talking points. Your territory is large, for any place in the world you go you can spend a few minutes "selling" your town which means nothing else but boosting it.
Wauseon citizens should learn the great advantage to be derived from being able to point out the manifold advantages of a residence here, or telling others exactly why they prefer to live here to having a home anywhere else. The man who can talk up his town, and who does talk up his town is always admired, no matter in what part of the country he may be or in what company he is thrown. Home-town pride is the first indication of good citizenship, and people who hear you reciting the merits of the place in which you live naturally take it that all the other citizens are doing the same thing, and that it is a good place in which to live or in which to do business. Start out now to "sell" your town, wherever you go. Learn its advantages, learn to talk about them in an interesting way and edge right in at every opportunity and tell about those advantages.

METHODIST CHURCH
Church school at 9:15. Rally day with special features in each class.
Junior Church 10:30.
Morning worship at 10:30, sermon subject, "The Psychology of Faith." This sermon is the third in the series, "The Psychology of Religion."
Epworth League at 6:30 p. m.
Evening worship at 7:00. Interesting address by E. Dow Bancroft of Columbus. Mr. Bancroft is a "live wire" speaker.

Chicken dinner every night and Sunday.
AVERY INN
F. W. AVERY, Prop.
A Little Better Service—A Little Better Food—A Lot More Homelike
Wauseon, Ohio

EXPANDING SERVICE

Farms as Well as Cities are Being Lighted Now-a-days

The farmer will soon throw away his lantern and lamp and will be equipped with electricity. Few people realize the amount of lighting that is now being handled by Electric Companies.
The Toledo and Indiana R. R. Co. who have their Power House at Stryker are expanding more all the time. They have lines running in every direction to bring the service to farmers, the hamlet, the village and cities.
From Stryker east, the company furnishes power and light to Archbold, Pettisville, Wauseon, Delta, Swanton and Holland, and a separate breaker furnishes the suburbs of Toledo known as "Sunshine Acres." Stryker, Elmira, West Unity, Aborton, Pioneer and Kunkle receive the service north of Stryker and west, Melburn, Edgerton, Williams Center and many other places.
Most of the service is 60 cycles with the exception of Stryker, Swanton, Elmira and Holland, which have 25 cycles. It will be a short time until the 60 cycles will be universal. This will do away with all frequency changes.
At the present time the company is furnishing an output of 650,000 kilowatts per month.
The company is ready to carry a steady load of 4000 kilowatts. Present power house equipment, as requirements may demand they can increase their capacity very easily.
Any developments along this line will mean an equipment of 60 cycles instead of 25.
They will, it is likely in a short time, furnish power to Butler, Indiana and as the lines are built gradually the farmer will see the convenience and will use electricity.

SHORTS AND MIDLINGS

Stored spuds must breathe, or they'll rot. Provide for ventilation in the potato bin.
"Where no oven are, the crib is clean, but much increase is the strength of the ox."—Prov. XIV, 4.
Human relations between tenant and owner are even more essential to progress in tenancy than a long-term lease.

Says Sam: Faith, friendliness and gumption are three American farm products on which the market never slumps.
A Wayne County farmer, planting half to home and half to Michigan certified seed potatoes, now reports 100 bushels to the acre from home-grown seed and an even 200 bushels an acre from the certified.

"Babies are born. Little boys in broad ties and little girls in bright frocks have their birthday parties. Lovers wed. Come come folks go visiting. Men and women grow old, droop and die." Of such small, yet great, matters is your home paper and the faithful historian, and the only one. Not to respond to and to support such a paper is to snub proffer of a kindly personal service.

CHANGE IN GAME LAWS

The law regarding the open season for fur bearing animals has been changed since the hunting license blanks were printed. The new law reads as follows:
Fur-Bearing Animals, Sec. 1398 — a. Open season. Skunk, fox, opossum may be taken and possessed only from the fifteenth day of November to the first day of February, and raccoon, from the first day of November until the first day of February, both inclusive; mink and muskrat only from the fifteenth day of November to the first day of March, both inclusive.

SHIFTING SANDS

Shifty and evasive as usual the Republican runs true to form, and says he wrote no letter objecting to the appointment of Mr. Kenyon or any one else.
In short he puts his own constructions on the object of the letter. However skillfully the letter may have been written to attack and yet permit a denial of its purpose, we simply want him to publish a copy of the letter he wrote to Columbus to whom ever it might be, discussing or commenting on the political situation here and let the people judge of its purpose.
Don't say you didn't write a letter with this thought or the other purpose, but did you write a letter to Columbus shortly after the telegram was sent and which concerned Fulton County politics. There are a good many that have seen it and lot more know it to be a fact. COME CLEAN.

THE CLOTHING STORE TAILOR

By Harrison and Funkhouser Bros.

The alteration department in the women's shops is a very important feature; for if a suit however expensive or elegant is not altered properly it is ruined and the reputation of the firm suffers accordingly.
Whether it is due to the fact that man is known to be less "finicky" than woman we do not know but we do know that many clothing stores are not equipped as they should be with competent alteration tailors.
The fit of a man's suit is just as important as that of a woman's, perhaps more so for sometimes the fancy trimmings of the feminine apparel serve to hide some defect in cut.
In numerous instances a clothier has been condemned and his store assigned to a perditional fate by the carelessness or ignorance of the man who made the necessary alterations. If a vest for instance, is too large it is not only necessary to "take it up" in the under arm seams but many times some shoulder adjustment is necessary to produce the lines intended by the manufacturer.
Unless the tailor understands all the little twists and turns necessary to adjust the suit to the individual he is a decided liability to the store of the firm and like other liabilities, unless dispensed with, he means the ultimate ruin of the concern.
For the careless alteration department is allowed to remain, how will it be possible?
Know a man by his clothier?

TAPS ONCE MORE SOUNDED

ANN WHITAKER SHADLE

Mrs. Ann Whitaker Shadle, daughter of David and Sarah (Hilmes) Whitaker was born Sept. 12, 1842 in Huron County, Ohio and died Oct. 9th, 1921 at her home on East Oak Street at the age of 79 years and 27 days. She is the last of the Whitaker family.
She came with her mother to this county in 1853 and it was while she was attending the Ottokree school during the painful days of Ottokree that she met Allen Shadle, and the young couple grew up together and married Aug. 9, 1862.
One year after they were married they began housekeeping on the Elm Tree farm near Ottokree where they spent nearly 50 years of their life. They moved to Wauseon about nine years ago where they have since resided.
One son Joseph Allen Shadle preceded his mother to the Great Beyond. She had two sisters and two brothers, John and Amos and Sarah and Ruth who have also preceded her in death.
The funeral services were held Wednesday at 1:00 p. m. at the house and interment was made at Ottokree.
The Women's Relief Corps and the Pythian Sisters attended in a body.

MR. I. H. HUNTER

Lesure Post has lost another one of their faithful comrades in the person of Mr. I. H. Hunter who passed away Sunday evening. He had been in poor health for a number of years.
He was a member of Co. K, 38th Ohio during the Civil War in which Co. he served with honor. He has made his residence in Wauseon since the war.
The funeral services were held Wednesday at 10:00 a. m. in the Evangelical church assisted by Lesure Post G. A. R.

TOLEDO CONGREGATIONAL ASSOCIATION MEETING

The Fall meeting of the Toledo Congregational Association was held Wednesday, October 11. Rev. A. E. Fish gave an address on the "Duty of American Youth to the Church of Christ in America." The meeting was held in West Millgrove, O.

TRAIN SERVICE EAST RESTORED

Last week an article was published in this paper concerning Train No. 2 east bound due here at 6:31 p. m., that discontinued stopping in Wauseon.
The discontinuing of this train cut out all mail service east after 9:00 a. m.
The following letter explains:
Cleveland, O., Oct. 7, 1921
Mr. R. J. Bissonnette, Editor
The Fulton County Tribune,
Wauseon, Ohio.
Dear Sir:
Your letter of the 6th inst. addressed to Superintendent, Railway Mail Service, Cleveland, has been referred to us.
All classes of mail matter will be dispatched via Tr. 2, leaving Wauseon at 6:31 p. m., effective with next Monday. Tr. 2 will restore practically the same service that you have heretofore been having, and I trust it will be satisfactory.
I thank you for calling the matter to my attention, and assure you it is our endeavor to afford the very best service possible. If, however, service plants of low quality, you have further suggestions to make, I shall be glad to receive them.
C. E. Hendrix
Chief Clerk

SEEK ALFALFA STRAIN TO RESIST LEAF SPOT

As an aid to Ohio alfalfa growers the Ohio Experiment Station, wooster is working on the development of a strain resistant to leaf spot.
Leaf spot causes a yellowing of the alfalfa leaves; this results in a plant of low quality.
Secure strains resistant to this disease officials of the Station test many thousand alfalfa seeds in separate plots.
Plants that prove to be resistant are propagated until seed is obtained.
Snappiest line of Hats and Caps in town.
Harrison and Funkhouser Bros.

CONCRETE ROADS NEARLY FINISHED

The concrete road west of town that is known as the Bryan-Toldeo road and is one of the main market roads through Fulton County will, if weather permits, be finished this week and will be opened for traffic by the first of November.
The contractors on this road are Lewis and Copeland of Lima, Ohio, who are living up to their agreement and will finish the road 30 days before their allotted time expires.
These same contractors built the East Chestnut Street pavement and it is one of the best streets in Wauseon. The road they are now completing will be just as good if not better and according to the County Surveyor every farmer along this road feels that the right kind of a road has been built. The first cost is large but when you stop to think of the maintenance with but a very little upkeep, and the road it doesn't cost near as much as macadam. It is almost out of the question to build gravel as there is but very little gravel in Fulton County, hardly enough to repair the ones we now have.
Too many of the stone or macadam roads go to pieces within a year after they are built unless they are built a great deal heavier than they have been and when it comes to doing that it would cost nearly as much as concrete.

The short piece of concrete road that is being built by LaBoetteaux and Hayes of Toledo just west of Delta was finished Wednesday and will be opened by the 1st of Nov. The contractors finished this piece of road several weeks before the time expired.
This is another piece of road on the Main Market Highway that the state gives aid. Concrete was decided to be the best and would last the longest but a very little upkeep. We are fortunate to have these good roads in this county. Wherever they have been built concrete in other counties they have been satisfied and feel they have saved money in the long run.

The Dorcas Class of the Congregational church will hold a bazaar goods sale at the Expositor office Saturday Oct. 15th.
Lola Knapp's Class will also sell home made candy.
Libby Leu, Chairlady.
A man who plows an acre walks eight miles.

THE LAKE ERIE REGION DURING THE REVOLUTION

In the early commerce of the Great Lakes, Erie was an important factor. The route from the Sandusky region to the Detroit straits shows up during the Revolutionary period very prominently in the commercial history of America. Some light on this subject is found in much original correspondence available in the Burton Historical Collections of Detroit, a glimpse of which is here given.
Letter from William Arundel to Thomas Williams and Co., Sandusky, 27th April, 1782
Sir:
You will please receive the two casks as mentioned—I could not send the two boats in at present as we are under the necessity keeping one here in case of danger from the enemy to cut and run upon the first notice of their approach. The Peltry is not yet come from the Shawany Country nor will not be here till the latter end next month—we thought there would be a quantity—the reason is not here is the roads was impracticable this winter and the woods all burnt in the fall so there was no food for the horses—The blankets you sent out were mostly damaged therefore must be sold per first opportunity—them that are not merchantable.
You please send us about 30 lbs. good smoking tobacco of that raised in the settlement and two cases of tobacco—Whitaker begs you'll be so good as send him 8 galls of rum and charge it to him as he expects to be in—he'll pay you then—you will please send the two P. K. flour and two pound Bohea tea.
Be so good as send the boat off immediately as soon as you think—and if Mr. Baby has anything to send S. Girty please let him know—they can be sent by the boat, as well as LeVellie who I believe will come out in the boat.
The news of the place is per the Prisoner Boat in this spring and from diff warts is that great preparations are making to come to Agt (against) the Indian Country but not against Dt (Detroit) as it must (as they say) fall of course—the defeat of Lord Cornwallis to the southward by the P. and A. (fleet and army) has given them a notion and its Resolve on French Fleet to come round Quebec and the A. (army) by the way of Lake Champlain—their Committee Man just left the Congress when it was resolved on and their orders was Accordingly issued out for that purpose.

POULTRY EXPERTS IN WAUSEON

Mrs. Rigaby, Mrs. McCarthy and Mrs. Mann will be in Wauseon for some time, making a survey of the poultry raised in this vicinity.
These ladies, Mrs. Rigaby, Mrs. McCarthy and Mrs. Mann made a special study of poultry culture and are prepared to help poultry raisers in and around Wauseon on such problems as culling, feeding of moulting hens and other such problems.
While in Wauseon they will call on all poultry raisers to take up these important problems.
The entrance of the E. F. Hanson Co. has made it possible for the poultry keepers to get the benefit of the experience of these experts.

A NOVEL SUGGESTION

Married women of Wauseon are advised to get themselves a nice pet rat or a guinea pig and feed him the food they give their husbands and then watch the effect. This is the advice of Miss Mary Sweeney, dean of the woman's division of the Michigan Agricultural College.
"A husband is like a rat," she says, "because both thrive on identically the same diet. If you can cook for a rat and keep its eyes bright, then smooth and in general condition good, you can do the same thing for a husband. When a husband is contented he will stay at home nights and perhaps assist with the housework. He becomes contented when he is fed on the proper diet. If you plan to feed your husband beefsteak, corn bread and pumpkin pie, try it on the rat first. The reactions manifested by the bright eyes and the smooth fur will be the same on any man, and by the same token you can take your husband in going to take your cooking."
Dean Sweeney practices what she preaches and part of the course in the economics department of the school is to have each girl cook for a rat for a specified length of time, and when she can please the rodent she is allowed to practice other forms of cooking which tempt a man's appetite.
It is said that all the girls who graduate from this class in school are married in less than three years after graduation and divorce records show that but one woman in the 125 has had serious domestic trouble.

THE CHILD CONSERVATION LEAGUE

Oct. 14th, 1921
Hostess.....Chloe Edgar
Paper.....Nora Hahn
The clothes and the girl: A study in morals.
Preserving the balance between modish and suitable attire, a matter of common sense and good manners. Discussion led by.....Belle Milley
Does the pronounced tendency of modern dress develop immodesty in our girls, and licentiousness in males?

TOWNSHIP FARM BUREAU

Meetings of the township farm bureau will be held according to the following schedule: a survey of the township.
At these meetings the work accomplished October 17th, 7:30 p. m. will be discussed and the work for the coming week will be planned. Every member should be present and have something to say about the work of his organization. Come and bring your wife.
Monday Oct. 17, Chesterfield, School House.
Tuesday, Oct. 18, Royalton, Church at Lyons.
Wednesday, Oct. 19, Pike, Grange Hall.
Thursday, Oct. 20, Fulton Grange Hall.
Friday, Oct. 21, Franklin, Zone.

UNEMPLOYED

By request of President Harding all cities are making an inventory of their unemployed. This is the community will know what must be done in way of furnishing employment and otherwise take care of the unemployed during the coming winter.
The Tribune is going to make an effort to find out the condition in Wauseon, below you will find a coupon and we will ask every person out of employment and wanting work to fill in his name and street address and mail or hand it in to the Tribune. The list of names will not be published. It will only be shown to those who wish to employ labor. We have a request now by a party who has an all winter job for a good man. Let the Tribune act as a Labor Employment Bureau for Wauseon.

COUPON

Fill out and send or mail to this office.

LESSON ENOUGH

Hudson Maxim told an Atlantic City audience that a merchant marine was as necessary to us in time of peace as a navy is in time of war, and he was right. Trade rivalry calls for trade boats, if we are to succeed, and trade boats are mighty helpful to a navy if we should be called upon to uphold our rights. We have had lesson enough in both phases of the struggle to balance the scales of surrendering the sea to foreign competitors.
Get your Woolen Underwear now, both two piece and union suits. Price guaranteed.
Harrison and Funkhouser Bros.

There's a common interest between you and this store

You want to get all the style, value and service in clothes that you can for the money you spend.

We want to give you as much value in those things as can be given.

It's good business for both of us; you make money; and by giving more than anyone else and taking smaller profits we bring greater business to this store. We make some money too—not on one sale but on a big volume of sales.
